

Insurance

There are two types of health insurance that may help pay for services and products at Blink Eyecare. You may have one or both.

- 1.) **Vision Insurance:** Vision care plans cover ONLY routine/healthy vision exams. They may also cover materials such as glasses or contacts.
- 2.) **Medical Insurance:** Medical care plans cover the treatment and management of eye diseases and screening for eye diseases if you have certain systemic conditions.

If you have both types of insurance, it may be necessary for us to bill some services to one plan and other services to the other. We will coordinate benefits to minimize your out-of-pocket expenses as healthcare guidelines allow.

We will bill your insurance plan for services and products if we are a participating provider. We make every attempt to obtain advanced authorization of your insurance benefits. We do need information from you to obtain authorization. You will be financially responsible if some fees are not paid for by your insurance plan; such as deductibles, co-pays, and non-covered services.
